## BACK TO THE 70's

### Friday 11th May

Col Meredith has been entertaining Queensland and northern NSW for many years and along with his many duo and solo shows he was also well known as the front man for popular party band Late For Woodstock. The lead singer and songwriter for Australian band Bourbon Street – which has recently re-formed - plays the classic hits of the 60s and 70s along with appealing contemporary songs. Making full use of his three-octave vocal range, he performs with as much passion and expression as ever. He beautifully captures the sounds of artists such as Neil Young, Bob Dylan, The Rolling Stones and Van Morrison along with unplugged versions of The Doors and Cold Chisel.
